

Subpart F – Contract Administration

TN404.57(b)

TN404.50 Modifications.

(c) Actions requiring modifications.

(8) “Significant” is defined as a variation of more than 15 percent above or below the original amount set forth in the conservation plan schedule of operations for a practice (single item) or a component of an item. This includes variations in either a unit price from the average cost price list or the volume of a unit of measure for a contract item number. Note that the EQIP program uses the price in effect at the time the contract is signed versus other programs that use the price in effect at the time the practice is commenced. An amendment to project agreements will be needed for any increase in the NRCS financial obligations under NRCS/District or District/participant contracts.

TN404.52 Practice documentation, certification and quality assurance reviews.

(b) The policy on review of expiring contracts is the resource conservationists will be responsible for on-site review and checking of long-term contracts at least 90 days prior to the expiration date.

TN 404.57 Nondiscrimination and equal employment.

(b) Include Exhibits TN1 and TN2 found in Subpart I, Exhibits, pages TN404-124(1)–(6) in all contracts in excess of \$10,000. Field offices will use Exhibit TN3, pages TN404-124(7)–(10), to determine goals applicable for their county(s).
